

2017 Summer Institutes: Grades 3-6

More Than Mounds: So You Think You Know Moundville?

Moundville Archaeological Park, Moundville

June 26-29, 2017

Sarah Stroud, Tuscaloosa County Schools

Ashley Dumas, University of West Alabama

There is heaps to learn about Moundville Archaeological Park. Participants will get all the dirt on Moundville's prehistoric past. Exclusive tours and hands-on activities with maps, pottery, and corn will help modern eyes see how the residents of Moundville once lived. Teachers will receive expert insight, but always with strategies to make Alabama's early history relevant to 3-5 grade students and how to make it fit the College and Career Readiness Standards. Teachers will also receive social studies resources, prizes for personal and professional use, and confidence to share the history that has taken place in their own backyard.
