

## 2020 Alabama History Institutes: Grades K-12

### Women's Suffrage Movement in Alabama

#### Virtual Teacher Workshop

July 23, 2020

Want to learn more about women's suffrage in Alabama? On August 18, 1920, the 19th Amendment was ratified guaranteeing women the right to vote. Join us for a 2-hour professional development session to explore the successes and limitations of women gaining equality at the ballot box. Participants will learn strategies for teaching the suffrage movement, as well as about available resources that highlight some of Alabama's most remarkable women. All public, private, and homeschool K-12 educators are encouraged to register. Registration is required. Credit hours and a certificate of completion will be offered to participants who attend the entire workshop session.
